

Noah P. Snyder

Department of Earth and Environmental Sciences

Boston College

140 Commonwealth Avenue

Chestnut Hill, MA 02467

617-552-0839 (telephone), 617-552-2462 (fax), noah.snyder@bc.edu (email)

<http://www2.bc.edu/noah-snyder/> (web)

EDUCATION

Ph.D., Massachusetts Institute of Technology, Cambridge, MA, geology (2001)

B.S., Bates College, Lewiston, ME, high honors in geology (1993)

EMPLOYMENT

Associate Professor, Dept. of Earth and Environmental Sciences, Boston College (2010-)

Director, Environmental Studies Program, Boston College (2010-)

Assistant Professor, Dept. of Geology and Geophysics, Boston College (2004-2010)

Postdoctoral Research Geologist, U.S. Geological Survey Coastal and Marine Geology Team, Santa Cruz, CA (2001-2004)

Research and Teaching Assistant, Department of EAPS, MIT, Cambridge, MA (1996-2001)

Visiting Instructor, Department of Geology, Colorado College, Colorado Springs, CO (2000)

Geologist, Utah Geological Survey, Salt Lake City, UT (1994-1996)

Teaching Assistant, Department of Geology, Bates College, Lewiston, ME (1990-1993)

RESEARCH INTERESTS

Rivers are conduits for transport of fresh water, sediment and nutrients throughout the landscape. At the same time, rivers are vital pathways for the migration of aquatic species, such as salmon. My research focuses on understanding how rivers respond to changes, ranging from long-term variations in tectonics or climate to short-term shifts in management style or land use. I link measurements of channel morphology from high-resolution airborne lidar digital elevation models with field-based measurements of stream processes.

FUNDING

NOAA Open Rivers Initiative / Gomez and Sullivan Engineers, P.C. (2008-2012)

On-site monitoring related to the Merrimack Village Dam removal project. Funded, began June 1, 2008 (\$28,000). Two-year extension, 2011-2012 (\$20,000).

NSF, EAR, Geomorphology and Land Use Dynamics (2007-2013)

CAREER: Land use, geologic and climatic controls on stream processes in northern New England using airborne laser swath mapping. Funded, NSF #0645343, began August 1, 2007 (\$438,806).

American Chemical Society, Petroleum Research Fund (2008-2011)

Dam-controlled river deltas as meso-scale analogues for offshore sedimentary systems (\$50,000).

National Fish and Wildlife Foundation, Maine Atlantic Salmon Conservation Fund (2006-2007)

Controls on channel morphology, sediment transport, and Atlantic salmon habitat in the Sheepscot and Narraguagus River watersheds, coastal Maine (\$40,000).

NCALM Seed Proposal (2004-2005)

Transient response of a desert river to forced diversion: Furnace Creek Wash, Death Valley National Park, California. Airborne laser altimetry data collection completed in February 2005.

U.S. Geological Survey Cooperative Agreement (2004-2006)

Quantifying sediment size and transport rates in Englebright Lake and the Yuba River. Collaborative work with the USGS Water Resources Division in Sacramento, California (\$21,675).

CALFED Science Fellows Program, California Sea Grant College Program (2002-2005)

Using stratigraphic and hydrologic data from the Yuba River system to develop reliable sediment transport predictions. Postdoctoral salary and research funding (\$139,537 to USGS; \$22,099 to BC).

Geological Society of America student research grant (1997)

Student Research Fund grant, Department of EAPS, MIT (1997)

Sigma Xi research grant (1992)

HONORS

Visiting Erskine Fellowship, University of Canterbury, Christchurch, New Zealand (2011)

USGS STAR Award, Englebright Lake coring project (2002)

Teaching Assistant Excellence Prize

Department of EAPS, MIT (2000)

Course: *Geological Image Interpretation*

J. Hoover Mackin Research Award

GSA Quaternary Geology & Geomorphology Division (1998)

Proposal title: *Channel response to varying uplift, King Range, northern California*

Magna Cum Laude, Phi Beta Kappa, Sigma Xi (1993); **Dean's List** (1989-1993)

INVITED LECTURES

- University of Canterbury, New Zealand, Dept. of Geological Sciences, October 3, 2011
- NOAA Restoration Center, Gloucester, MA, March 10, 2009
- Bridgewater State College, Geology Club Lecture, March 5, 2009
- Boston College, Boisi Center for Religion and American Public Life, February 4, 2009
- College of the Holy Cross, Environmental Studies and Biology Seminar, April 15, 2008
- University of Maine, Orono, Dept. of Earth Sciences, March 22, 2007
- University of Massachusetts, Amherst, Dept. of Geosciences, December 1, 2006
- Association of Engineering Geologists, Northeast Section, Woburn, MA, February 16, 2006
- Rensselaer Polytechnic Institute, Dept. of Earth and Environmental Sciences, October 26, 2005
- Boston College, Weston Geophysical Observatory, November 10 and 17, 2004
- USGS Coastal and Marine Geology Team, Santa Cruz and Menlo Park, April 15 and 27, 2004
- Cornell University, Dept. of Earth and Atmospheric Sciences, April 8, 2003
- University of Montana, Dept. of Geology, March 17-18, 2003
- Rice University, Dept. of Earth Sciences, March 3, 2003
- Boston College, Dept. of Geology and Geophysics, February 27-28, 2003
- San Francisco State University, Dept. of Geosciences, February 21, 2003
- Oregon State University, Geosciences Dept., February 13, 2003
- UCSC, Institute of Marine Sciences, January 29, 2003
- USGS Coastal and Marine Geology Team, Menlo Park, CA, July 25, 2002
- Dartmouth College, Dept. of Earth Sciences, January 31-February 1, 2002
- Boston Bay Group, Cambridge, MA, May 16, 2001
- UCSC, Institute of Marine Sciences, April 16, 2001
- University of Virginia, Dept. of Environmental Sciences, February 27, 2001
- Middlebury College, Geology Dept., January 11, 2001
- Bates College, Geology Dept., February 2, 2000

TEACHING

COURSES TAUGHT AT BOSTON COLLEGE

Exploring the Earth (GE132-GE133-GE136, 4 credits, 35-56 students, Fall 2004-2010)

First semester of the introductory course for Geology and Geophysics majors, and core students seeking a rigorous introduction to Earth science. Readings from a textbook and recent journal articles. Included one or two Saturday fieldtrips designed to emphasize field observations and problem solving. Grading based on tests, fieldtrip reports and laboratory. Usually co-taught with Prof. Chris Hepburn or Yvette Kuiper.

Rivers and the Environment (GE170, 3 credits, 45-100 students, Spring 2005-2007, 2009-2010)

Core course geared for non-science majors. Readings selected from textbooks, recent journal articles and popular nonfiction. Included a one-day fieldtrip to the Quabbin Reservoir in central Massachusetts. Grading based on papers, exercises (short essays and calculations), class participation, and midterm and final examinations. Was the first natural science course to participate in the pilot Writing Fellows Program (in 2006 and 2007).

Environmental Systems: the Human Footprint (GE201+GE211, 2 credits, 25 students, Fall 2010)

New introductory course for Environmental Geoscience majors and Environmental Studies minors. Readings selected from a textbook, recent journal articles and popular nonfiction. Grading based on lab projects (reports and calculations), class participation, and midterm and final examinations.

Watershed Geomorphology (GE400-GE401, 4 credits, 13-16 students, Spring 2006, Fall 2007, 2009)

Taught to majors and graduate students. Readings from a textbook and recent journal articles. Centered on a series of 6 multiweek field and computer lab projects designed to teach quantitative methods, problem-solving skills, and scientific report writing. Included one Saturday fieldtrip. Grading based on lab projects, a midterm, a take-home final exam, and participation.

Remote Sensing and Image Interpretation (GE490, 3 credits, 10-13 students, Fall 2006, spring 2009)

Taught to majors and graduate students. Readings selected from textbooks and recent journal articles. Centered on a series of 7 image-analysis projects using a variety of methodologies and technologies.

Environmental Seminar (GE580, 3 credits, 29-51 students, Spring 2007, 2010, 2011)

Final seminar for Environmental Studies minors. Co-taught. Grading based on written assignments, final group presentations and class participation. Discussed topic-specific assigned readings, including contemporary books and articles. Teams of 3-5 students were responsible for leading the discussion each week.

Earth Systems Seminar (GE692 or GE693, 3 credits, 9-12 students, Fall 2005 and 2009)

Co-taught with Professor Gail Kineke. Focused on training in research skills for new graduate students in Geology and Geophysics. Included a fieldtrip following the Merrimack River in New Hampshire and Massachusetts. Grading based on problem sets and written assignments, a final research proposal and oral presentation, and class discussions of recent scientific literature.

Seminar in Geology: Tectonic Geomorphology (GE794, 3 credits, 6 students, Fall 2004)

Readings and Research in Environmental Geoscience (GE596); **Readings and Research in Geology** (GE597 and GE799); **Advanced Independent Research** (GE599); **Thesis Seminar** (GE801)

STUDENT MENTORING AT BOSTON COLLEGE

M.S. STUDENTS

Maricate Conlon, Eric Hazlinsky, Stephanie Strouse (current)

Andrew Nesheim, graduated 2011, *Predicting bed grain size in Maine rivers using lidar topographic data*

Adam Pearson, graduated 2010, *River response to dam removal: case study of the Souhegan River and the removal of the Merrimack Village Dam, Merrimack, New Hampshire*

Elizabeth Johnson, graduated 2009, *Hydraulic and geomorphic effects of large woody debris additions in the Narraguagus River watershed, coastal Maine*

Benjamin Wilkins, graduated 2009, *Geomorphic comparison of two Atlantic coastal rivers: toward an understanding of physical controls on Atlantic salmon habitat*

Michael Castele, graduated 2007, *Modeling sediment transport and quantifying channel morphology of the Sheepscot River, coastal Maine*

Lisa Schultz, graduated 2005, *Investigation of the transient response of Gower Gulch to forced diversion, Death Valley, California*

B.S. THESIS SUPERVISION

Susan Bresney, graduated 2011, *Patterns of greenhouse gas production and water quality in high and low gradient reaches of the Sheepscot River, Maine*

Billy Armstrong, graduated 2010, *Trends in New England flood magnitude and frequency revealed by partial duration flood series analyses of long gauge records*

David Santaniello, graduated 2010, *Using ground penetrating radar to determine the quantity of sediment stored behind the Merrimack Village Dam, New Hampshire*

Peter Snajczuk, graduated 2009, *Using airborne lidar data to create a surficial geologic map of the upper Narraguagus River watershed*

Alan Kasprak, graduated 2008, *Measuring sedimentation rates and land-use change in a dam-influenced lake delta: Narraguagus River, Maine*

Cristina Lopez, graduated 2007, *The evaluation of the effectiveness of retention ponds at stormwater control and downstream channel protection*

Michele Gryga, graduated with honors 2006, *Controls on water temperature in the Sheepscot River, Maine*

SERVICE ACTIVITIES AT BOSTON COLLEGE

DEPARTMENT OF EARTH AND ENVIRONMENTAL SCIENCES

- Member of the department Undergraduate Studies Committee (2004-2011). Director (2009-2011). Assessed and developed a new curriculum for all undergraduate majors.
- Member of five faculty search committees. Organized and conducted informal interviews with top candidates (selected from the pool) during the American Geophysical Union meeting in San Francisco (December 2004, 2005, 2008, 2009 and 2011).
- Faculty coordinator of the Geology and Geophysics department lecture series committee (2004-2010). Brought 5-10 speakers to campus each year.
- Organized (with Sergio Fagherazzi of Boston University and Taylor Perron of Harvard University) the William Morris Davis Lecture, a new, annual event hosted at a Boston-area university (2007-2010). BC hosted the lecture by Prof. Dorothy Merritts on October 17, 2008.
- Participated in *Strengthening Your Geoscience Program: A Practical Workshop with Ideas and Examples* (College of William and Mary, Williamsburg, VA, June 2-4, 2009).
- Participated in the *Early Career Faculty Workshop: Teaching, Research, and Managing Your Career*, part of the *NSF On the Cutting Edge* program (College of William and Mary, Williamsburg, VA, June 8-13, 2005).
- Gave presentations on the department during Admitted Students Weekends (2005-present).
- Organized information sessions during advising period for majors and minors in the department (2005-present).
- M.S. thesis committee member for Tracey Arvin, Matthew Brennan, Maria Crosby, Kristy Heath, Michelle Lermon, Ross Markwort, James Pyburn, Michael Robbins, Misty Stroud, and Jia Yan.

COLLEGE OF ARTS AND SCIENCES

- Appointed director of the Environmental Studies Program (2010). Conducted a review and revision of the Environmental Studies minor curriculum (2010-2011).
- Reviewed Dean's Scholar applications (2011).
- Worked with Paula Mathieu and Diane Hotten-Somers (English Department/First-Year Writing Program) and Sue Barrett (Connors Family Learning Center) to revise the curriculum of *Rivers and the Environment* (GE 170, core) to be the first natural science course in the pilot BC Writing Fellows Program. The course included two short writing assignments that build toward a final paper. Each of these assignments was revised by the students in consultation with the writing fellows (Spring 2006 and 2007).
- Organized Geology and Geophysics department presentation for the Parent's Weekend undergraduate research poster session (2004-2008).
- Officially advised 3-12 students per year (2005-present).

UNIVERSITY

- Presidential Scholars Program faculty mentor for Ryan Beck, a double major in CSOM (Finance) and Environmental Geoscience (2007-2010), and Michael Cuttler, a Geology major (2009-2011).
- Co-organized the BC Energy and Environment Alumni Network (BCEEAN) *Excelling at Sustainability Conference* (April 15-16, 2011).
- Participated in the Junior Scholars in Conversation monthly meeting series, hosted by T. Frank Kennedy and James Keenan at St. Mary's (2006-2009).
- Participant in the *Liberal Education and Beyond* working group of the university Institute for Liberal Arts (2008-2009).
- Participant in the *Ways of Knowing* working group of the university *Catholic Intellectual Traditions* initiative (2008-2009). Gave a public talk at the Boisi Center for Religion and American Public Life (February 4, 2009; http://www.bc.edu/centers/boisi/publicevents/current_semester/snyder.html).

- Participated in the *Ethics and Sustainability of the Earth* conference, hosted by the Jesuit Institute (March 2009).
- Gave a presentation on NSF-CAREER award to the BC Board of Trustees Academic Affairs Committee (March 9, 2007).
- Participated, with 11 other professors from Atlantic Coast Conference universities, on a three-week trip to meet with researchers in Vietnam and China centered around the subject “Water resources research in major watersheds in southeast Asia” (June 2006).
- Participated in the AnDover Faculty Weekend on Teaching (April 2005).
- Member of SustainBC (2007-present).

PROFESSIONAL COMMUNITY SERVICE

- Visiting scholar, Geological Sciences Department, University of Canterbury, Christchurch, New Zealand (2011-2012).
- Core network participant on the NSF-funded Diadromous Species Restoration Research Network, which brings together multidisciplinary researchers working on ecosystem restoration in northern New England (2008-present). Helped organized the first science conference in Orono, Maine (July 2009). Participated in research workshops (April 2010 and May 2011).
- Reviewed 30 student proposals for GSA Quaternary Geology and Geomorphology Division Mackin and Howard awards (2011).
- Presented research at a meeting on *Streambank Stabilization, Flow Redirection and Stream Enhancement* organized by the U.S Fish and Wildlife Service and Natural Resources Conservation Service (June 2011).
- Co-organized a semi-weekly evening seminar with faculty, researchers and students from Boston College, Boston University and MIT (February-May 2011).
- Co-chaired a session on *River Restoration in Maine and the Region* at the Maine Water Conference in Augusta (March 2011).
- Appointed to a three-year term on the Steering Committee of the National Center for Airborne Laser Mapping (NCALM, <http://www.ncalm.org>, 2008-2010). Committee chair (2009).
- Acted as a formal discussant on river restoration at the 7th Gravel-Bed Rivers Conference in Tadoussac, Quebec, Canada (September 2010).
- Co-organized a NSF-sponsored workshop on *New Tools in Process-Based Analysis of Lidar Topographic Data*, in Boulder, CO (June 1-2, 2010). (http://www.opentopography.org/index.php/resources/short_courses/lidar2_2010/).
- Co-chaired a session on *Habitat restoration in North Atlantic watersheds* at the Northeastern Section of the Geological Society of America meeting and Maine Water Conference in Portland, Maine (March 2009).
- Member of two interdisciplinary task forces related to river restoration in Maine: the Penobscot River Science Steering Committee and the Atlantic Salmon Recovery Habitat Work Group. Also a member of the Hydrology and Hydraulics subcommittee for the Penobscot River project. (2005-2008; <http://www.penobscotriver.org/> and http://www.nero.noaa.gov/prot_res/altsalmon/).
- Co-chaired a session on *Quaternary landscape changes: sedimentary and geomorphic records* at the Northeastern Section of the Geological Society of America meeting in Buffalo (March 2008).
- Hosted a meeting on Massachusetts rivers with researchers from the NOAA Restoration Center, Massachusetts Riverways, American Rivers, and the College of Holy Cross (February 2008).
- Panel member for two meetings of the NSF Geomorphology and Land Use Dynamics program. Reviewed and provided recommendations on ~45 proposals at each panel meeting (2007).
- Ph.D thesis committee member for William Ouimet at MIT (2007).
- Participated (with 4 students) in a field campaign at the Merrimack Village Dam in southern New Hampshire with scientists and land managers from the NOAA Restoration Center, NH state agencies, Gomez and Sullivan consultants, and American Rivers (August 2007).

- Participated in a meeting on *Fluvial Geomorphology and Salmon Habitat on the Narraguagus River* led by the Maine Atlantic Salmon Commission and Project SHARE. Provided input, based on research findings, on two river restoration plans presented by consultants (April 2007).
- Provided input on restoration strategies for the Sheepscot River with representatives from the Sheepscot Valley Conservation Association, Kleinschmidt Consultants and the U.S. Fish and Wildlife Service (January 2007).
- Member of the agency team of the Upper Yuba River Studies Program, a stakeholder-driven, land-use decision-making process (California, 2001-2006).
- Chaired a session on *Managed rivers as large-scale experiments in geomorphic processes* at the AGU Fall meeting in San Francisco (December 2004).
- Acted as an external reviewer for 5-10 manuscripts per year for journals including *Geology*, *Geological Society of American Bulletin*, *Journal of Geophysical Research*, *Earth Surface Processes and Landforms*, *Geomorphology*, *Water Resources Research* (2001-present).
- Acted as an external reviewer for 4-10 proposals per year for the National Science Foundation and other funding organizations (2005-present).
- Member of the American Geophysical Union (1996-present, <http://www.agu.org/>).
- Member of the Geological Society of America (1996-present, <http://www.geosociety.org/>).
